

Jerry and Mary Ann Chubb want the Indiana privacy phone law kept as it. Being home all day and disabled, the number of unsolicited calls was a horrible problem. Sometimes there were as many as twenty a day. Now there are NONE. We have an answering machine and they would fill it up. I only want calls that I need to answer. Before I was always afraid not to answer because of a call from my wife, but now I feel safe answering the calls that come. Please don't "water down" the Indiana law that is working. Jerry R. Chubb
